

IN THE CLAIMS:

Please cancel claims 1-7, 9-15 and 17-26, and amend the claims as follows:

1. - 7. (Canceled)

8. (Currently Amended) ~~The method of claim 1;~~ A method of formatting an electronic document comprising at least two frames each containing searchable text, comprising:

receiving a response containing the electronic document comprising the at least two frames each containing the searchable text;

automatically designating one of the at least two frames as a default search frame based on a pre-existing specification of the default search frame, wherein the designation is made irrespective of a listed order of the frames and wherein automatically designating comprises one of selecting from the at least two frames a frame containing a greater amount of content and selecting a largest frame from the at least two frames; and

rendering the electronic document for display; wherein the designated default search frame of the displayed electronic document is available to a user for conducting a search of the searchable text contained in the designated default search frame and wherein, absent a command from the user to search a different one of the at least two frames, a user request to perform a search is, by default, automatically initiated in the designated default search frame.

9. – 15. (Canceled)

16. (Currently Amended) A computer readable storage medium, comprising a network navigation program which, when executed by a processor, causes steps comprising:

parsing a response containing an electronic document formatted with at least two frames each containing searchable content; and

automatically designating one of the at least two frames as a default search frame based on a pre-existing specification of the default search frame. ~~The computer readable storage medium of claim 10,~~ wherein automatically designating comprises at least one of selecting from the at least two frames according to an attribute of the at least two frames, selecting from the at least two frames a frame containing a greater amount of content and selecting a largest frame from the at least two frames.

17. - 26. (Canceled)
